

EARLY ACCESS · PLAYABLE ON THE WEB

RETRO VOLEYBOL

8-bit arcade volleyball with real rally rhythm. A publisher pitch.

retrovoleybol.online

A sports arcade that still feels like volleyball.

Rally, not button-mash

Three-touch rule, serve power and aim, dive saves, tips, blocks, and perfect-timing combos.

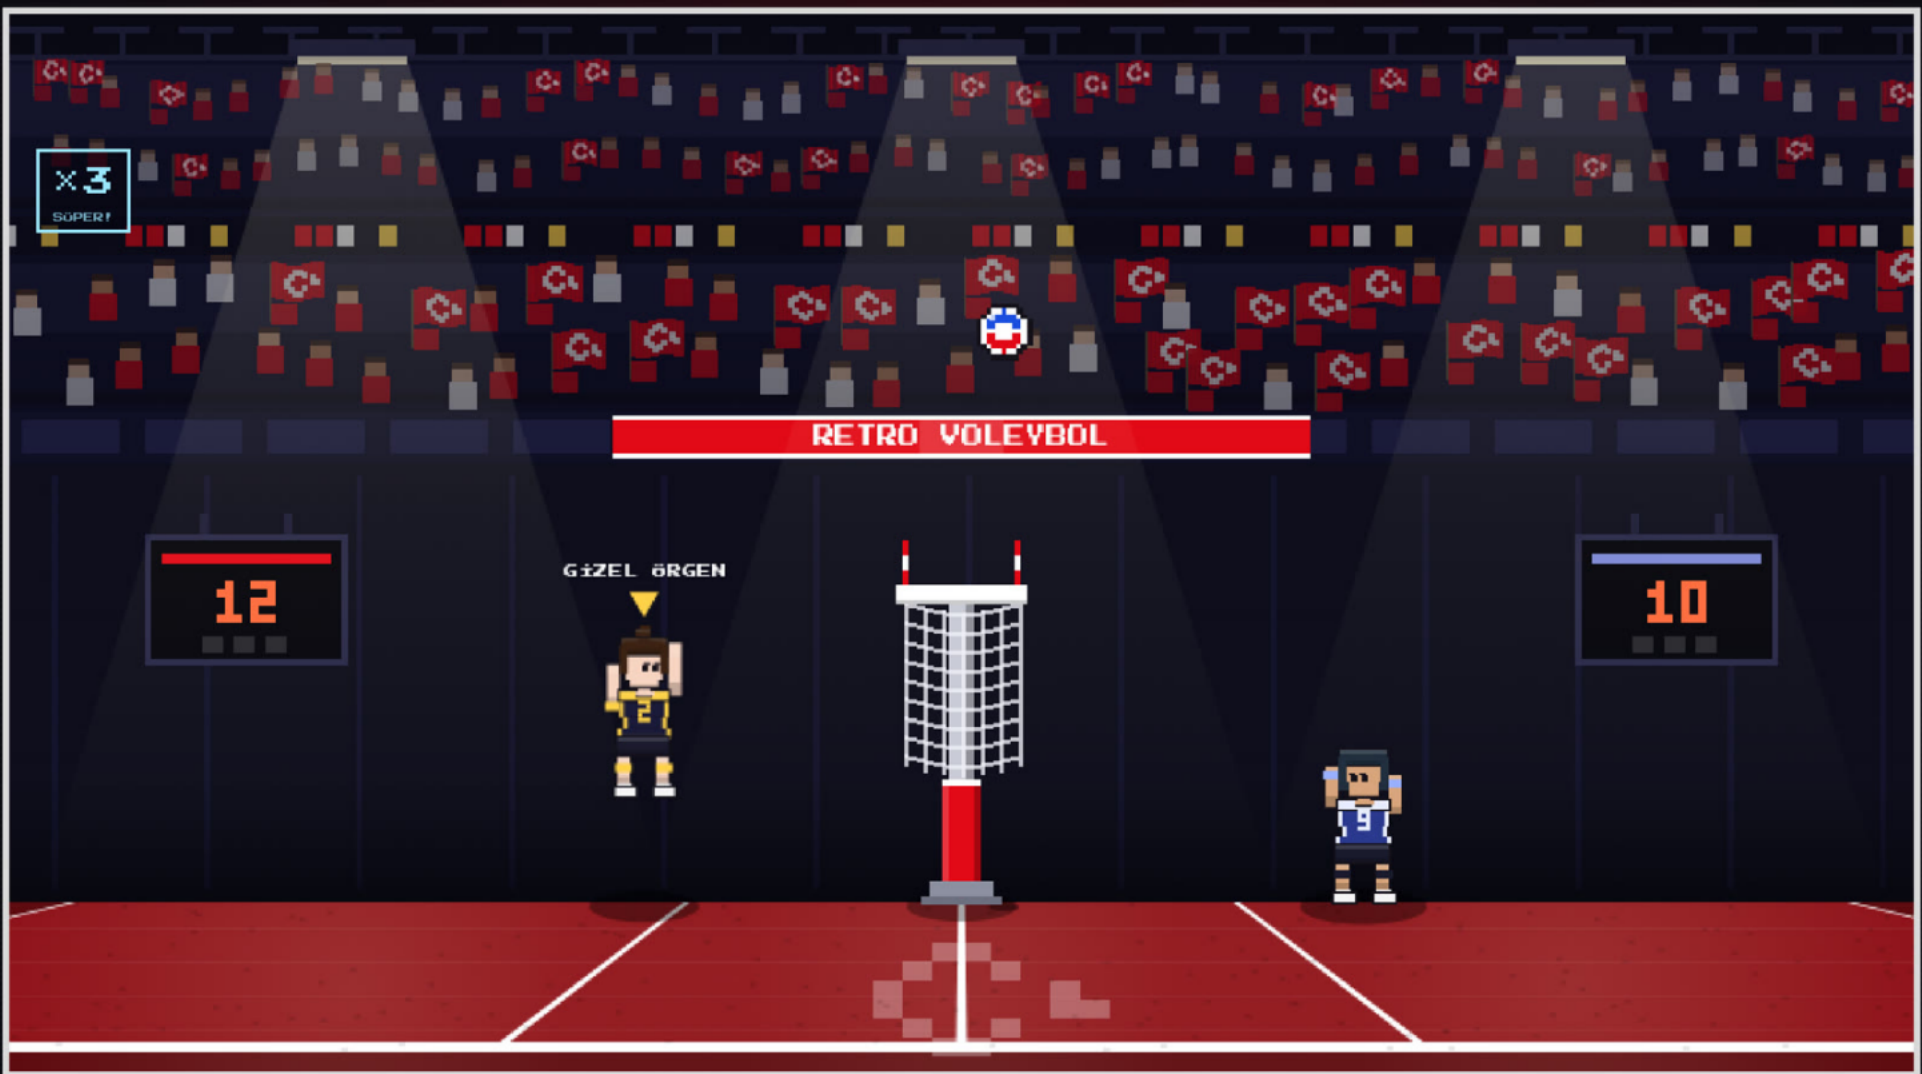

Drawn in code

Players, ball, net, and stadium are original pixel art — no licensed likenesses, no stock sprites.

Built to be played now

The web build is live in early access. No download required.

Tight rallies. Readable pixels. Instant reads.

Five ways in. One language of play.

Quick Match

Pick opponent, format, and difficulty.

Tournament

Five rounds. One loss and you are out.

Co-Op / Versus

Two players, one device — same team or opposite sides.

Survival

Waves ramp. Lives run out. Rank is the trophy.

Online

One tap to a real opponent. Rematch supported.

A fictional squad with real roles.

How to play

Full roster collection

Win, unlock, come back.

Records, achievement badges, and a trophy screen after every match. Practice sets do not count as ranked wins — the meta stays honest.

What a partner is looking at.

Genre	Sports / Arcade · 8-bit pixel
Status	Early access · web live today
Play now	https://retrovolleybol.online (no download)
Platforms	Web · Android (Capacitor) · iOS-ready webview path
Controls	Keyboard · landscape touch · local two-player pads
Tech	Custom 2D Canvas simulation · React shell · WebSocket online
Content	Original pixel art and music, generated in code
Business today	Free to play · no ads · no IAP yet
Audience	13+ · sports + retro arcade

A complete sport in a small, original package.

Rights-clean

Fictional roster and original art. The store path is not blocked by likeness or licensed music.

Session-fit

Quick Match, practice sets, and Survival are built for short sessions. Tournament is the long sit.

Already playable

Publishers can review the live web build today — not a vertical slice, the actual game.

Mobile-shaped

Landscape-first, touch controls, same codebase into Capacitor. Web is the proof; stores are the scale.

NEXT STEP

Play it. Then let's talk.

The game is in early access and live on the web. We are looking for a publishing partner for mobile store rollout.
